A kiss from the bride is the only fee a Colorado Springs Justice demands for the marriage of couples who are willing to swear the bride did the proposing. If he looks like a lot of Justices his charge is extortionate. —Tennessean.

James Wilson, secretary of agriculture, Monday broke all records for continuous service in presidential cabinets. He now has served fifteen years. The longest previous term of any cabinet officer was credited to Albert Gallatin, who was secretary of the treasury from 1801 to 1813. Mr. Wilson was first appointed by President McKinley in 1897, and successively by Presidents Roosevelt and Taft.

The Kimmel jury at St. Louis decided the issue of greatest public interest in the famous identity mystery and \$25,000 insurance contest, when it reported that the Kimmel claimant, known as Andrew J. White, an ex-convict, put forward by a life insurance company of New York, was not George A. Kimmel. But the jury stated it could not agree on the vital issue of the suit—whether George A. Kimmel was dead or alive in March, 1904, when the present suit was filed.

## WHAT WE OWE TO WOMEN

Ever They Have Been the Makers of the Home and Providers of Comfort.

Social progress with primitive women was stimulated and encouraged by their relation to home life, to dress and to manners. We have already alluded to the women as the authors of the home or shelter. It is the female bird that makes the nest, the female mammal that digs the burrow for her young and the female bee that makes the honeycomb as a home for hers. The human female more than all the rest created her home. But not only is this true, but she differentiated the home, and all parts of the most elaborate establishment were instituted by her or on her account. The first homes were cheerless caves. Fire could not be made in them because of the smoke, so women sought out a cave with an opening in the rear, or a rock shelter with a high curved roof. When she became a dweller in a tent she searched for the oldest wood, learned the mysteries of the fuel problem and even invented the coral to induce the wind to draw a little of the smoke therefrom and to increase her comfort. To the women of the household we are indebted for the oven, the chimney and the chimney corner, the kitchen, the dining room, the family room, the separate bed chamber. It has been a wonderful evolution, resulting in comfort, taste and morality. —Otis T. Mason, "Woman's Part in Primitive Civilization."

Black and White vs. White and Black. For many years a large department store has spent thousands of dollars on placards with which almost every article of merchandise is ticketed throughout the store, and only within a short time did they realize the amount of money that was being wasted in using the white cardboard with black lettering. These white cards soon became soiled and shop worn if allowed to remain in place any length of time. The cards which are handled by customers in bins, trays, etc., are even more so. By substituting the black cardboard with white lettering this store has overcome this difficulty to a very great extent. The show cards are always clean, fresh and bright-looking and they last many times as long, saving the firm several hundred dollars in the course of a year.—Business.

"Grandfather" Clock 200 Years Old. A remarkable hand made clock is in the possession of the Swedish Lutheran Orphanage at Avon, Mass. It is one of the old "grandfather" type and consists of 13,000 pieces. It was made about 200 years ago by Henry Haven and is still running. The works are of wood, the case a handsome checkered of inlay work, the material mahogany and white boxwood. Henry Haven was several years completing it. Two heavy weights and two bob weights are the only metal in the works. The clock was in the possession of the Blanchase estate of Avon for generations. When the property was sold for a Swedish orphanage the clock went with other furniture to the new owner.

Big Trade in Frozen Meat. Argentina supplies 90 per cent. of the frozen beef and frozen mutton consumed in Sheffield, England. Australia and New Zealand provide the remainder. Its use is constantly increasing. Frozen meat is never sawed, but it chopped with a cleaver. The retailers receive the meat in quarters which they chop into angular blocks, from which the quantities desired by customers are cut. These blocks afford material for fine window displays, and the windows of frozen-meat shops are generally piled high with all sizes and shapes of solid red

## CULBERSON IN WILSON RANKS

Texas Senator Gives Convincing Reasons for Favoring Governor.

## IS IDEAL MAN FOR PRESIDENCY

Democrat of Best Type Who Would Divorce Government From Privileged Class—Nomination Means Success.

Governor Woodrow Wilson has found a new champion in Senator Culberson of Texas, who has frequently been mentioned as a possible nominee for the presidency by the Democratic national convention at Baltimore.

In a formal statement issued at Washington espousing the cause of the New Jersey executive, Senator Culberson says: "Now that it is practically settled there will be no primary for president, I have no hesitation in saying in reply to recent inquiries from Texas Democrats that I believe we should nominate Governor Wilson of New Jersey for president. While all may not agree with him as to some details, Governor Wilson is by birth, education and conviction a Democrat and a Democrat of the very best type. In the present emergency he would apply the fundamental principles of democracy to existing deplorable conditions in such manner as to restore to the people their government, divorce the government from a privileged class and seek the prosperity of the whole country rather than a favored few."

Wilson's Policies. "He would limit tariff taxes to governmental purposes, he would regulate justly but effectively railway and other corporations engaged in interstate commerce, and while he would deal liberally and generously with the pension list he would make it in truth a roll of honor and not a mere medium for a coarse and wholesale assault upon the treasury. Recent attacks which have been made upon him

Senator Charles A. Culberson.

because of his stand for popular government and because he let it be known that he did not desire the support of special interests, giving them to understand that they need expect no favor from him after election, have not injured him in public estimation nor swerved him from his high purpose to serve the whole and not simply a part of the people.

"The latest criticism of him is that as governor of New Jersey he has made no effort to modify or repeal the laws of that state under which most of the great trusts have been organized. This charge is entirely baseless, for in his very first message to the legislature Governor Wilson denounced the existing incorporation laws of the state as having brought discredit upon it and urged such changes in them as would effectually prevent the abuse of the privilege of incorporation. He also recommended that such scrutiny and regulation should not be confined to corporations seeking charters but should be extended to those already in existence."

## A Strong Candidate.

"Governor Wilson, as our candidate for president, appeals to me particularly at this juncture in view of conditions in the Republican party. President Taft will unquestionably be renominated by that party. His sympathy with the regular Republicans and his opposition to reforms advocated by the progressive Republicans are well known. While it may be admitted that the leaders of the progressives will support the ticket nominated by their party, yet this is not true of the rank and file who as a rule are without political ambition and consequently have no party loyalty to maintain. To a greater extent than any of the Democratic candidates for the nomination Governor Wilson would draw from this class of voters besides holding every Democrat worthy of the name and drawing largely from the educational classes and the independent element. His campaign, like the one he made for governor of New Jersey, will be remarkable in our history for intellectual vigor in grasp of present political conditions and in clearness of statement of the remedies he is unexcelled by any public man of the times. We must not underrate the strength and resources of the Republican party and should not delude ourselves with the belief that any man we nominate can be elected. We must draw from the dissatisfied Republicans and the independents to win and in my judgment the surest way to do this is to nominate Governor Wilson."
